Skills

HTML/JAVASCRIPT/REACT /NEXT.JS/SEQUELIZE/MYSQL/MONGODB/GRAPHQL/ELIXIR

Applications

CLOTHING STORE CMS – REACT/JAVASCRIPT/NODE/SEQUELIZE/MYSQL

- This web software is devised of an API and frontend I designed from the ground up. This application takes into consideration stock values, price per unit, user to order relationships, and everything else a small business owner would need to get their startup off the ground.
- Github: https://github.com/daedadev/Shop-CMS
- Live App: https://react-shop-cms.herokuapp.com/

UPPER LEVEL KICKS – REACT/JAVASCRIPT/FIREBASE/MYSQL/SEQUELIZE/NODE

- This web page consolidates sneaker data from the leading resell websites around the world. GOAT and StockX lead the resell market and are second to only Ebay themselves. With the highest selling shoe being sold at auction for 1,000,000$. This site allows users to save view and browse shoes from these top reselling companies.
- Github: https://github.com/daedadev/upper-level-kicks
- Live App: https://upperlevelkicks.net

PERSONAL BLOG – NEXT/JAVASCRIPT/MARKDOWN

- Personal blog made in NEXT.js utilizing static web generation and SEO practices. I post my current project updates and thoughts here. It utilizes markdown and highlightjs to create beautiful code mockups.

- Live App: https://daedadev-blog.vercel.app/

Education

BM | OBOE PERFORMANCE | CALIFORNIA STATE UNIVERSITY FULLERTON 2015 – 2020

FULL STACK WEB DEVELOPER BOOTCAMP | UNIVERSITY CALIFORNIA RIVERSIDE 2021-2021

Work Experience

OFFICE ASSISTANT | RIVERSIDE COUNTY PHILHARMONIC

- I worked with the Riverside County Philharmonic for 2 years helping them with event management and website construction. I would advertise events and market door to door.
- Updating their blog and uploading images from events to keep their website up to date was a part of my daily tasks. My knowledge in Word/Excel/Windows would also come in handy.
- I would take what the executive director wanted and turn it into a reality. From conception to creation I aided every step of the way and alongside the Executive Director we collected one of the largest donations the philharmonic had seen in the amount 10,000,000$.

SHIFT LEAD | DICKEY'S BARBECUE PIT

- I was the backbone of Dickeys barbecue for over half a year. As shift lead and opening manager I would ensure that the restaurant was prepped and ready to go every morning.
- As a veteran worker and shift lead I trained new employees regularly and my leadership was second to none. Being the front-man I had to know how to perform every task, from prepping food to working the cash register. Being transparent and open with my co-workers as well as customers made not only my experience working better but also enriched the experiences of those around me.
